

LOXCREEN WEATHERSEAL

LoxSeal 9650 High Performance Weatherstrip

Introducing the new EZ Kerf design!

The new **EZ Kerf** feature allows for quicker insertion and installation time. The **EZ Kerf** design accommodates any potential inconsistency in the width of the saw kerf. **No more damaging of the weatherstrip when removal is required.**

Other Benefits

- Low friction, highly UV stabilized polyethylene cover for superior weather and wear resistance.
- Flexible low density foam core for positive sealing, low compression set and minimal door closure force.

Colors: Bronze (BZ), White (WH) and Beige (BE)
